PERSONAL PROJECTS

Resume Uploader (08/2023 - 09/2023)
- Resume Uploader is a Python-based web application developed with Django, enabling users to seamlessly submit and manage their resumes. With a user-friendly interface, it streamlines the process of collecting information, ensuring a smooth experience for both applicants and administrators.

WORK EXPERIENCE

Full Stack Python Developer
Azadchaiwala

07/2023 - Present   *Rawalpindi , Pakistan*

Azadchaiwala Institute: Unique, hands-on learning commitment in all courses.

Achievements/Tasks
- I've created a Python-based e-commerce application that handles inventory management, order processing, and customer interactions, ensuring a seamless online shopping experience es.
- I have crafted a robust project named ' resume uploader using the Python framework Django, incorporating various libraries.
- I have also completed many other projects besides this one.
